

## In this Edition:

- Subsea Roll Up
- Hoists for Honda UK
- Liftex & OSEA 2010

## JDN Subsea Roll Up

Take the chance and lend the new Subsea Roll Up for your next trade fair or in-house exhibition free of charge. Further themes on request.

**JDN UNDERWATER HOISTS  
PROFI SUBSEA SERIES**

Diver's ultimate lifting tool

**Your benefits**

- Air or hydraulics
- Variable speed control
- Overload protected
- Hook suspended super versatile tool
- For horizontal and oblique use

## JDN Hoists for Honda UK

Air operated hoists JDN *mini* range have been successfully deployed on the Engine Block Machining Section by Honda of the UK Manufacturing Ltd (HUM), at their South Marston Plant in Swindon. Following an initial installation in this production area some five years ago, further hoists have been subsequently supplied.

The hoists chosen for these repetitive lift operations are the J.D. Neuhaus *mini*, with both the 125 kg and 250 kg lift capacities being used. These are very durable, robust units, ideally suited to the conditions and environment in which they are being used. They also use far less air than many other pneumatic hoists and have proved to be a considerable improvement over the wire rope balancers previously used.

More JDN Hoists have also been supplied for other operating areas at HUM. These include 500 kg capacity models, typically used by plant maintenance services for other heavy duty lifting applications. Like all JDN Hoists, with a high degree of load control positioning accuracy.

JDN Air Hoists are suitable for lubrication-free operation at high lift/lower frequencies. That makes them a productivity increasing powerful tool.

## Liftex 2010 & OSEA 2010

The Lifting Equipment Engineers Association (LEEA) is established across the globe as the leading representative body for all those involved in the lifting industry worldwide. The LEEA's annual LiftEx exhibition will be held in Coventry, UK, November 18 & 19.

The J.D. Neuhaus Ltd. Team is looking forward to seeing you on their booth no. 58/59.

OSEA 2010, Asia's largest and most established oil & gas industry event, will be held from November 30 to December 3 in Singapore.

As an highlight we will introduce the JDN Subsea Hoists PROFI with air or hydraulic drive to the Asian market.

We are looking forward to your visit, booth no. 6G4-01.
