

In this Edition:

- Location Power Plants
- Product Training 2011
- Air/Electrics/Hydraulics

Location Power Plants

During installation, commissioning and acceptance test of a power plant JDN Air Hoists carry the equipment to the right place like Heaters, Dampers, Fans, Turbines, Valves, Steel Constructions

The advantages at one sight:

- 100% duty cycle, no down-times
- Insensitive against dust
- Reliable operation
- Easy maintenance
- Low headroom
- Hoists for vertical, horizontal & oblique pulling
- Trolleys for traversing

JDN Product Training 2011

At the following dates we offer training courses in our facilities. Please book in time as the number of participants is restricted.

COURSE DATES	AVAILABLE SEATS	
→ December 13 - 14, 2010	5	●
→ February 14 - 15, 2011	occupied	●
→ March 14 - 15, 2010	5	●
→ June 20 - 21, 2010	5	●
→ September 19 - 20, 2010	5	●
→ Dezember 12 - 13, 2011	5	●

Comparison of Systems Air/Electrics/Hydraulics

The following chart shows a short comparison of the systems. You want to learn more? Then please contact us.

Factor	JDN Air	Electrics	JDN Hydraulics
Energy storage	Air tanks	UPS	Pressure tanks
Energy transmission	Up to 1000 m (pressure drop)	Unlimited (voltage drop)	Up to 100 m (pressure drop)
Application area	Structurally ex-proof, nearly unlimited applicable	Ex Protection & increased IP protection class on additional charge	Structurally ex-proof, nearly unlimited applicable
Connection	Easy, no special knowledge required	Special knowledge required	Easy, no special knowledge required
Forces	Structurally overload protected	Overload protection by thermo switch	Structurally overload protected
Installation	Easy plug or screw connections	Cable glands, screw terminals	Easy plug or screw connections
