## In this Edition:

- JDN Offshore Hoists
  - New Monorail Hoists
- 

## JDN Monorail Hoists for Offshore Applications

### Features

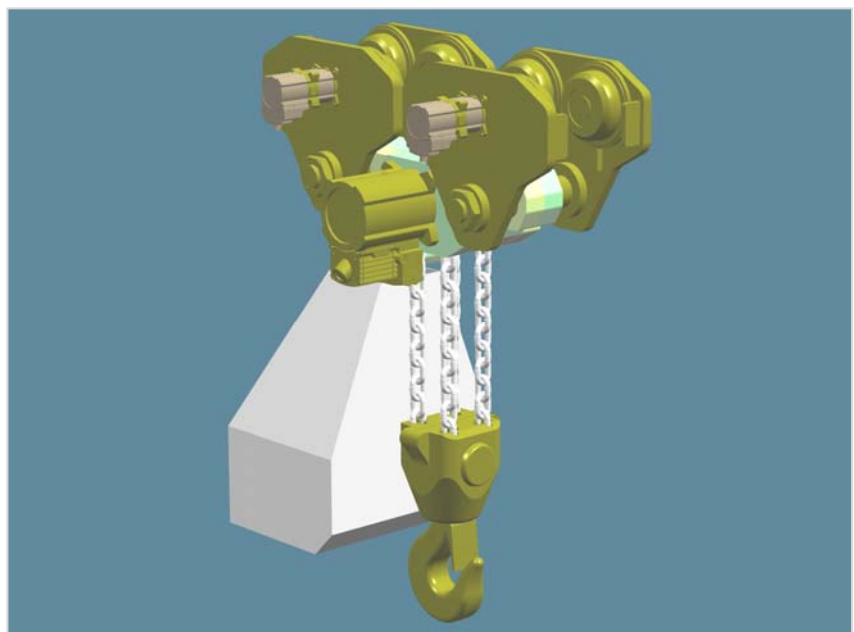

- Flow optimised air guidance
- Offshore corrosion protection package
- Standards API 7K, ABS, ANSI B30, DNV Approval Programs, NORSOK
- Overload adjustable from 90% to 125%
- 3.1 certification on load carrying parts
- Safety factor 5:1
- Traceability by JDN unique parts marking system
- Quality Management System according to ISO 9001 and Environmental Management System according to ISO 14001 by the TÜV Rheinland

### Optional features

- Air, hydraulic or electrical remote control
- Load monitoring system
- Radio control
- Rack & pinion drive
- Articulated trolley for limited side pulling
- Worldwide Service

## New JDN Monorail Hoists EH 37 and EH 50

As a result of 30 years of experience in offshore material handling J.D. Neuhaus introduces a new generation of Monorail Hoists. These new JDN Monorail Hoists were specially designed for BOP Handling Systems and fulfill all requirements for this special application. They are available with pneumatic or hydraulic drive and with capacities of 25 t, 37 t and 50 t.

### Your benefits

- 25% less air consumption due to new energy saving valve
- Lube-free operation, no additional lubrication required
- Less components, low maintenance due to new brake motor generation
- Adjustable beam width
- Reduced noise level
