## JDN IN POWER GEN APPLICATIONS

*Photos show maintenance of ID fan & rotor at a local power plant*

During installation, commissioning and acceptance test of a power plant, JDN Air Hoists carry the equipment to the right places like Heaters, Dampers, Turbines, Valves, Steel Constructions.

**The advantages at a glance:**

- ◆ 100% duty cycle , no down times
- ◆ Insensitive against dust
- ◆ Easy maintenance
- ◆ Only mechanical parts, no electrics or electronics

- ◆ Sturdy design for harsh environment—including high temperatures
- ◆ Low headroom
- ◆ Hoists for vertical, horizontal and oblique pulling
- ◆ Manual reel chain and motorized trolleys for traversing

*Photo at left shows the mounting of a steel door weighing 33 tons with two JDN Profi 25TI air hoists. Go to <http://www.jdneuhaus.com/us/hoists/jdn-air-hoists-profi/examples-of-application.html> to see JDN hoists in unlimited applications.*

*Call 800-331-2889 or email [info@jdneuhaus.com](mailto:info@jdneuhaus.com) with your request for quote or for answers to your material handling questions!*

# JDN HOISTS FOR HONDA UK

JDN Mini air hoists have been successfully deployed on the Engine Block Machining Section by Honda of the UK Manufacturing Ltd. (HUM), at their South Marston Plant in Swindon. Following an initial installation in this production area five years ago, further hoists have been subsequently supplied.

As with numerous auto manufacturers around the world, the Mini air hoists are chosen for these repetitive lifting operations with 275 lbs, 550 lbs, 1100 and 1 ton capacities. These are very durable, robust units, ideally suited to the conditions and environment in which they are being used. They use far less air than many other pneumatic hoists and have proven to be a considerable improvement over the wire rope balancers previously used.

Go to <http://www.jdneuhaus.com/us/hoists/jdn-air-hoists-mini.html> to view the specs for the JDN Mini Air Hoist

## ***Increase Productivity***

Like all JDN Hoists, the Mini has the following advantages that will result in increased productivity:

- The Mini has a high degree of load control positioning accuracy.
- Suitable for lubrication-free operation
- High lifting/lower frequencies
- 24/7 operations

In addition to the production line, JDN Air hoists are also used in other auto plant operating areas, such as plant maintenance.

## **TRADE SHOWS—LOOK FOR THE 2011 SCHEDULE NEXT MONTH**

We are working on the 2011 JDN Trade Show calendar! 2010 was a successful trade show year. Thanks to all the folks who stopped by our booth at shows around the country. See you at a show near you in 2011!

## **2010 Shows**

- Pacific Design & Manufacturing Show
- Design & Manufacturing South
- OTC
- Four Corners Oil & Gas
- IADC Drilling Onshore Conference & Exhibition
- IADC Lifting & Mechanical Handling
- 60th Annual Wilmington Regional Safety & Health School
- South Florida Building & Maintenance Show

ALL SUBMISSIONS TO THE JDN NEWSLETTER ARE ENCOURAGED AND APPRECIATED.

**REMEMBER THAT THE NEW JDN CATALOGUES ARE AVAILABLE!
