

# JDN NEWSLETTER DECEMBER 2008

J . D . N e u h a u s , L . P .

**J.D. NEUHAUS**  
powered by air!

## In This Issue

JDN High Performance Grease	1
JDN Sales & Service Training	1
JDN 2009 Trade Shows	2
JDN Shipyard Application	3

*Seasons Greetings to you and your family!*

## JDN High Performance Grease

To keep your hoist operating optimally, JDN recommends use of its high performance grease which enables oil-free compressed air operation.

Advantages:

- ◆ For longtime lubrication of JDN Air Motors.
- ◆ Increased protection against corrosion.
- ◆ Zero-emission exhaust air.

We recommend a very thin layer on the following components

- ◆ Motor: Rotor, vanes, cylinder, side plates.
- ◆ Brake: Brake cylinder & piston, brake surfaces (see operation manual)
- ◆ Control valve: All bearing surfaces

On motors without patented JDN rotor grease chambers, the procedure for achieving permanent protection must be repeated annually. See your operations manual for maintenance procedures.

*Call 800-331-2889 x107 or email [p.weber@jdneuhaus.com](mailto:p.weber@jdneuhaus.com) to order your JDN High Performance Grease*

### HOLIDAY SCHEDULE!

In celebration of the upcoming holidays, JDN USA offices will be closed:  
December 25 & 26, 2008 & January 1 & 2, 2009

## JDN Announces 2009 Trade Show Schedule

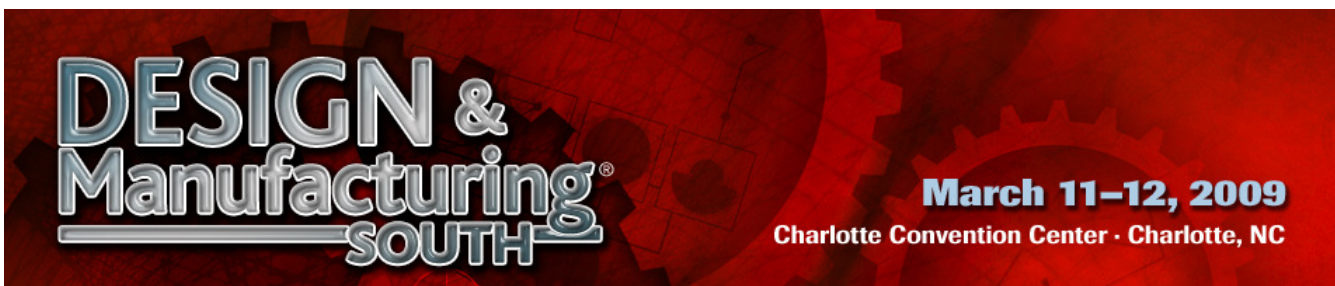

February 11—13, 2009

San Diego Convention Center

San Diego, CA

Co-sponsored by AFCEA International (Armed Forces Communications and Electronics Association) and the U.S. Naval Institute, West 2009 is the largest event on the West Coast for communications, electronics, intelligence, information systems, imaging, military weapon systems, aviation, shipbuilding, and more. Don't miss this exclusive opportunity to engage the military and industry leaders who are designating warfighting strategies and operational platforms. <http://events.jspargo.com/west09/public/enter.aspx>

March 11—12, 2009 Charlotte Convention Center Charlotte, NC

Design & Manufacturing South exhibitors are more than just suppliers of the latest machinery, materials, and components. They know your industry and are ready to strategically assist you on every aspect of product development—from design through manufacturing and distribution—all while meeting the objective of lowering costs.

<http://www.device-link.com/expo/dmsouth09/index.html>

April 29-30, 2009, Florida State Fairgrounds Expo Hall, Tampa, FL

The *Florida Building & Facility Maintenance Show* is positioned to serve the needs of Facility Management and Maintenance professionals from across this region. Our free two-day trade show also features seminars designed to bring the latest information on the products, technologies and services today's maintenance and repair operation professionals need. <http://www.fb-fm.com/>

### 2009 Offshore Technology Conference

4-7 May :: Reliant Park :: Houston, Texas, USA

May 4-7, 2009

Reliant Park

Houston, TX

OTC is the premier offshore industry event for professionals, service industries and suppliers to gather and discuss common issues of ocean resource development. Technological innovations and forums on economic, social, and political aspects of resource development and environmental protection have been the mainstay of this worldwide conference. <http://www.otcnet.org/2009/>

## JDN Announces 2009 Trade Show Schedule

The only conference exclusively dedicated to land drilling! Top speakers and panels will explore issues affecting the onshore drilling industry, including technology, management and perspectives on future onshore activity. Through conferences, training seminars, print and electronic periodicals, websites, and a comprehensive network of technical publications, IADC continually fosters education and communication within the upstream petroleum industry.

## JDN Shipyard Applications

Mounting a rudder blade with two JDN Profi 100 TI Air Hoists

Disassembling a propeller with several JDN Profi 50 TI Air Hoists

Compared with electrical hoists JDN Air Hoists have a wide application range. This is an advantage in shipbuilding whether used for the installation of rudder blades, propellers, drive shafts or for general maintenance work.

The advantages are:

- ◆ 100% duty cycle, no downtimes.
- ◆ Capacities up to 100 ton.
- ◆ Compact design, low weight with easy handling.
- ◆ Water resistant.
- ◆ Safe and reliable operation.
- ◆ Easy maintenance.
- ◆ Only mechanical parts, no electrics or electronics.
- ◆ Sturdy design for harsh environment.
- ◆ Sensitive infinitely variable speed control for precise positioning of loads.
- ◆ Under special conditions suitable for oblique pulling.
- ◆ Trolleys for traversing.

*Call 800-331-2889 x107 or email [p.weber@jdneuhaus](mailto:p.weber@jdneuhaus) to request your quote today! Air Hoists are available from 275 lb capacity to 100 tons.*
